

BUJNIE TILLO T4 - Assembly instructions

You are the happy owner of a T4 plant stand from the TILLO collection
Here, in a few points, using the example of a basic module, we will show you how to assemble it.

Height: 990 mm
Platform height:
210 mm, 500 mm, 750 mm, 990 mm
Base sizes:
circles diameter 200mm; shelf
160x300mm;
wings 144mm diameter
Base width: 340 mm

<p>1. The plant stand consists of:</p> <ul style="list-style-type: none"> 3 x discs/bases for plants 1 x base oblong for plant 2 x movable plant bases - wings 1 x tube connecting base 1 x bottom base with tube fittings <p>The kit also includes: 2.5mm Allen key</p> <p>additional tools needed: 8mm wrench</p>  <p>4 x tube/pillar (in four heights)</p>	<p>2. We start the assembly by setting the base</p> 	<p>3. fix the 4 pillars/tubes in the right order, do not tighten the screws at the base, pay attention to the height of the tubes, arrange them according to the figure below, the highest and lowest diagonally.</p>  <p>highest tube (A)</p> <p>lowest tube (D)</p> <p>the order of the tubes according to the height A, B, C, D</p>
<p>4. inserting the tube connecting base (first shelf) between the 4 tubes tightening the screws from the bottom of the first shelf while setting the tubes vertically (do not tighten the pillars yet)</p>  <p>tube connecting base</p>	<p>5. fixing 2 movable plant bases (wings) in the centers of the tubes, in the places of grooves.</p>  <p>movable plant base - wings</p>	<p>6. attaching the next shelves in order from the lowest (when tightening, press the shelf to the pipe from above, keeping it level, it may be helpful, especially the longitudinal one) straightening the whole and tightening the pillars (tubes) and all other elements</p>
